Summer 17/18

GHS Christmas Celebrations

The GHS team kicked off their Christmas celebrations with a cocktail making class at Choo Choo's bar. This was then followed by a lovely lunch at Elizabeth Quay's, Isle Of Voyage on the picturesque Swan River. We exchanged 'Secret Santa' gifts and enjoyed the beautiful summer weather Western Australia has to offer.

New Zealand Registration Update

There have been recent discussions around the current costs of application registration fees relating to the New Zealand Medical Radiation Technologists Board (NZMRTB). Significant price increases have now been confirmed for the next registration year. These will be increased from 1st February 2018.

SUMMER PICK

Are you an experienced cardiac sonographer with a passion for rural and remote health? We are seeking an echo professional, who will be based in a coastal tourist destination, in northern Australia, to spearhead a new service for an established organisation. There will be travel involved as well as the opportunity to spend time at the main base in the capital. If you are interested or know of someone who may be, contact us to discuss further.

Wishing you a healthy and happy New Year

Opportunities in

Perth, Australia

Perth is the capital of Western Australia and situated on the banks of the Swan River. For most of the year, the weather in Perth is fine and sunny, and even during the short mild winter the sun is often shining. With such great weather, clean unspoilt beaches and natural parklands, there's no wonder it has been voted as one of the world's most liveable cities. The population of Perth is approximately 1.9 million. Perth locals enjoy a relaxed outdoors lifestyle, as does its neighbouring port city, Fremantle, which is located at the mouth of the Swan River. There are many marine-based activities including boating, fishing, swimming and all types of surfing. Fremantle offers historic architecture that takes you back in time to appreciate its marine heritage, and Rottnest Island is located only a short ferry's ride away. Over 80 kilometres of white sandy beaches make Perth's coast ideal for swimming and surfing. Stroll through Kings Park botanical gardens - or try the treetop walk for a unique view of the city. There are many other attractions in Perth, including Elizabeth Quay, Perth Town Hall, the Perth Mint and the Swan River itself.

Rockhampton, Australia

Rockhampton is the provincial capital of Central Queensland and offers a rich community spirit with the best tropical climate Queensland has to offer. It is located 650km north of Brisbane, 8m above sea level and is just a few kilometres north of the Tropic of Capricorn. Rockhampton's charming historical architecture has captured the hearts of visitors for many decades. Founded in 1853, the city is home to heritage post offices, historic streetscapes, majestic cathedrals, quaint homes and is the gateway to the Coast and the Outback.

Wellington, New Zealand

Wellington is the capital city and second most populous urban area of New Zealand. It is at the south-western tip of the North Island, between Cook Strait and the Rimutaka Range. Part of Wellington's charm is its close proximity to nature. The central city is nestled between a beautiful harbour and forested hills. Wellington is a special blend of heritage buildings, museums and galleries, fine food and live entertainment opportunities, which makes this city a great place to visit and live in any season. Wildlife sanctuaries, islands, seaside villages, ocean beaches and regional parks provide huge scope for outdoor fun.

Geelong, Australia

Geelong is the second largest Victorian city; located 75 kilometres north-east of Melbourne. It is a sizeable city with a population of approximately 192,393. Known as the gateway city due to its central location to surrounding regional centres including Ballarat, Torquay and Great Ocean road to name a few. With the relaxed atmosphere of a coastal country town, it boasts a wonderful waterfront precinct, sophisticated dining options and variety of entertainment. The surrounding towns on the Bellarine Peninsula offer an abundance of water activities and they have a fabulous reputation as food and wine destinations. Geelong is an emerging health, education and advanced manufacturing hub.

Desperately Seeking

Sonographer

Our independent client is looking for an experienced sonographer for a permanent position at their site in Cairns, Queensland. This role will involve a full range of scanning. Experience with Siemens equipment will be advantageous. Competitive salary offered based on experience.

MRI Radiographer

Our large private practice client is seeking an experienced MRI radiographer for a permanent role at their site located in Northern Tasmania. Experience working autonomously would be advantageous for this role. Competitive salary offered based on experience.

Physiotherapist

We are seeking qualified physiotherapists with experience in hospital and private practice settings, for multiple roles within New Zealand. These full time roles offer a competitive salary based on experience, within supportive physiotherapy teams.

Echocardiographer

An opportunity to work within a progressive and established private facility, with multiple sites around the Perth metropolitan city. This would suit an energetic professional who enjoys being part of a team. International candidates will be considered.

Mobile Mammographer

This travelling mammography role located in Australia, will attract generous allowances on top of your base salary and will offer the opportunity to see a bit of the country at the same time.

Senior Mammographer

We are looking for a mammography professional, with a post graduate certification in mammography and comprehensive skills in this modality, as well as senior experience, to lead a small team working within the national New Zealand breast screen programme. The location is coastal, very attractive, and would appeal to those professionals seeking a work / life balance.

MSK Sonographer

General sonographers with strong MSK skills are required for multiple locations in New Zealand's north island. If you are interested in a temporary, twelve month contract or permanent role, please contact us.

Dedicated Mammographer

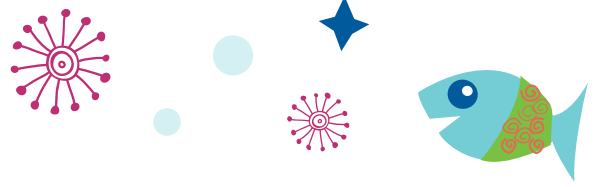

Dedicated mammography professionals required for various roles in the south and north islands. These positions have scope for some travel around a number of very beautiful spots within New Zealand. We are seeking independent energetic individuals who have a passion for breast imaging.

Mixed General/Mammography

Do you have general, mammography and some CT skills? If so and you are available for a twelve month contract in a very friendly department, located on the beautiful south island of New Zealand, this might be the job for you.

Mobile Mammographer

This travelling mammography role located in Australia, will attract generous allowances on top of your base salary and will offer the opportunity to see a bit of the country at the same time.

Best Wishes

Erin Mollman is an American qualified echocardiographer, who has relocated to Wellington, New Zealand to work with a large public hospital.

Jenn Forge is a Canadian qualified sonographer, who has commenced a 6 month locum assignment, within a busy private practice in New Zealand's north island.

Joanne Wright is a UK qualified mammography professional, who has arrived in the north island of New Zealand to take up a role within a busy private practice.

Mandy Rabie is a South African qualified radiographer who has made a permanent move to Wellington, New Zealand with her husband and has accepted a long term role within a dedicated breast imaging facility.

Gaylene Larsen is a New Zealand qualified radiographer who has commenced a 12 month fixed term contract, working in dedicated mammography, in the public sector at a women's imaging service in Western Australia.

Jenne Haines is an American qualified general sonographer, who has recently accepted a long term position within a private practice group in Auckland, New Zealand.

Melinda Marais is a South African qualified radiographer, who has travelled with her family to join an established private practice group in Whangarei, New Zealand.

Maria Rafiq is a UK qualified mammography professional, who is currently completing a temporary assignment within the breast screen service in New Zealand's north island.
